ATHENA

Job Application for Software Engineer

Dear Jeremy,

I am writing to apply for the Engineer position at Athena. I am a computer science major at the University of British Columbia, and have interned at Fortinet Inc. and Royal Bank of Canada as a web developer and full stack developer, respectively.

As part of the platform team, I will be providing services for Athena employees as well as the client experience EA experience teams. I have experience working with databases and have a strong understanding of Git, automation, and CI/CD. I also have experience with Google Cloud Platform (GCP) and am proficient in languages such as JavaScript and TypeScript.

In my previous internships, I have demonstrated my ability to work independently and collaborate effectively with my team. I am highly ambitious and possess excellent problem-solving and collaboration skills. I am confident that my skills and experience make me a strong candidate for this position.

I am excited about the opportunity to work at Athena and contribute to the development of a robust and scalable platform. Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to the success of your team.

Sincerely,

Kanishka Verma
